perspective on women in Southeast Asia Although the book focuses on one village it provides vital insights into the gendered processes of post coloniality By exploring the contestations and accommodations being made in rural villages by both men and women *Webs of Power* reveals the processes at the heart of globalization as well as the complexities of power that circulate between women and men in a rural peasant society Muslims and Matriarchs Jeffrey Hadler, 2013-11-15 *Muslims*

and *Matriarchs* is a history of an unusual probably heretical and ultimately resilient cultural system The Minangkabau culture of West Sumatra Indonesia is well known as the world's largest matrilineal culture Minangkabau people are also Muslim and famous for their piety In this book Jeffrey Hadler examines the changing ideas of home and family in Minangkabau from the late eighteenth century to the 1930s Minangkabau has experienced a sustained and sometimes violent debate between Muslim reformists and preservers of indigenous culture During a protracted and bloody civil war of the early nineteenth century neo Wahhabi reformists sought to replace the matriarchate with a society modeled on that of the Prophet Muhammad In capitulating the reformists formulated an uneasy truce that sought to find a balance between Islamic law and local custom With the incorporation of highland West Sumatra into the Dutch empire in the aftermath of this war the colonial state entered an ongoing conversation These existing tensions between colonial ideas of progress Islamic reformism and local custom ultimately strengthened the matriarchate The ferment generated by the trinity of oppositions created social conditions that account for the disproportionately large number of Minangkabau leaders in Indonesian politics

across the twentieth century The endurance of the matriarchate is testimony to the fortitude of local tradition the unexpected flexibility of reformist Islam and the ultimate weakness of colonialism Muslims and Matriarchs is particularly timely in that it describes a society that experienced a neo Wahhabi jihad and an extended period of Western occupation but remained intellectually and theologically flexible and diverse [The Oxford Encyclopedia of Women in World History](#) Bonnie G. International Handbook on Gender and Demographic Processes Nancy E. Riley, Jan Brunson, 2018-05-02 This handbook presents a comprehensive and up to date overview of gender in demography addressing the many different influences of gender that arise from or influence demographic processes It collects in one volume the key issues and perspectives in this area whereby demography is broadly defined The purpose in casting a wide net is to cover the range of work being done within demography but at the same time to open up our perspectives to neighboring fields to encourage better conversations around these issues The chapters in this handbook carefully document definition and measurement issues and take up parts of the demographic picture and focus on how gender plays a role in outcomes In other cases gender often plays a cross cutting role in social processes rather than having a single or easily distinguishable role it often combines with other social institutions and even other statuses and inequalities to affect outcomes Thus a key factor in this volume is how gender interacts with race ethnicity class nationality and sexuality in any demographic setting While each section contains chapters that are broad overviews of the current state of knowledge and behavior the handbook also includes chapters that focus on specific cultures or events in order to examine how gender operates in a particular circumstance
