Physics in Minerva's Academy Steffen Ducheyne, 2025-01-27 This monograph explains how in the aftermath of the battle over Ren Descartes philosophy Newton's natural philosophy found fertile ground at the University of Leiden. Newton's natural philosophical views and methods along with their underlying distinctions seamlessly aligned with the University of Leiden's institutional religious policy which urged professors and students to separate theology from philosophy. Additionally these views supported the natural philosophical agendas of Herman Boerhaave, Willem Jacob's Gravesande and Petrus van

Musschenbroek. Newton's natural philosophical program was especially useful in the three Leiden professors project of reforming existing disciplines and providing them with epistemic legitimacy **Handbook of Dutch Church History** Herman J. Selderhuis, 2014-12-10 Herman Selderhuis as editor of this volume has brought together a team of experts resulting in a unique approach since each chapter is co-written by a catholic and a protestant author who have all integrated the latest research results. Each section begins with a brief historiographical overview. The same time ecclesiastical events are always set within a greater framework of political, social and cultural developments for which reason each author has taken the liberty to describe its own method. The user will find in this book tables, diagrams and illustrations. Also many source texts are integrated in the narration. These texts are intended to bring the described events and people closer to the reader and as it were to let them speak the words. The name of the book as *Handbook of the church history of the Netherlands* immediately brings to mind three problematic complexes which are relevant to its user. First there is the nature of a handbook that is intended to be a good tool but also has its limitations. It stimulates and necessitates the use of further books. Second the area. The Netherlands is a plurality and that is also noticeable in its church history for each region, town and village has its own church history. Third the history of the church for sure is the most important aspect but this history can only be understood if it is described in the context of political and social developments **Testing Faith and Tradition**

John Lapp, 2006-10-01 The Anabaptist movement had its beginning in scattered places throughout Europe during the 16th century. Today these Anabaptist descended Mennonite churches are declining in membership but they are not without reinvigorated faith and hope. Frequent wars during the past 480 years strained these Mennonite churches immeasurably especially when their governments battled each other. This volume recounts those torturous and formative experiences. Seldom have the distinguishing features of the Dutch, the French, the German, the Swiss, the Russian and more recently the U.K. and the Spanish Mennonite churches been examined. These churches' cultural and historical differences are significantly unique and they are a key part of the history told in these chapters by European Mennonite historians and church leaders.

The Umsiedler with their sheer numbers and religious vigor are a current force included in this ongoing story Testing Faith and Tradition is the second volume in the Global Mennonite History Series **Wederdopers, menisten, doopsgezinden** Désiré Paul Raymond Arthur Bouvy, Rijksmuseum Het Catharijneconvent, 1980 *Sisters*, 2014-08-28 Harlot pious martyr marriage breaker obedient sister prophetess literate woman agent of the devil hypocrite These are some qualifications of the image of Anabaptist Mennonite women from a wide array of perspectives Over the ages they became both negative and positive stereotypes created by either opponents or sympathizers as a means of demonizing or promoting the dissident radical free church movement This volume explores the characteristics backgrounds and effects of the collective perceptions of Anabaptist Mennonite women as well as their self understanding from the sixteenth into the nineteenth centuries in a variety of case studies This is not a gender study in the traditional sense The theory of imagology sets the stage for the interpretation of the image of the European Mennonite sisters acting within their religious moral cultural and social landscapes of Austria Belgium Germany the Netherlands Poland Switzerland and the Ukraine tsarist Russia **Women**

**Writing Back / Writing Women Back**, 2010-05-25 Interest in early modern women writers is on the rise However familiarity with their works varies greatly from one country to another and resources to assess their historical significance remain insufficient Yet empirical evidence suggests that women writers who are no longer well known today played surprisingly varied roles in the literary field of early modern Europe The papers collected in this volume address early modern female authorship from the late Middle Ages to the end of the eighteenth century ranging geographically from Portugal to Russia and from Italy to Denmark In particular they focus on three themes the creation of female spaces or communities women's appropriation of existing or developing literary genres and transnational perspectives on early modern women's writings Contributors include Vanda Anastasio Bernadette Andrea Mónica Bolufer Philips Bosscher Hans Bots Kathleen Garay Nina Geerdink Perry Gethner Elena Gretchanaia Ineke Janse Madeleine Jeay Anne Marie Mai Christine Mongenot Meredith Ray Ina Schabert and Lynn Lara Westwater At Home on the World Markets Joost Jonker, Keetie Sluyterman, 2001-03-01

The Dutch economy has relied on trade for centuries During the seventeenth century the Netherlands experienced a Golden Age built largely on commercial enterprise and trade continues to be the golden link in the supply chain from producers to consumers Yet we know very little about the business of trade and the people involved in it What was the nature of their work and how did it evolve through the ages In the lavishly illustrated At Home on the World Markets Joost Jonker and Keetie Sluyterman look at mercantile dynasties such as the Trips and the Van Eeghens and companies such as the famous Dutch East Indian Company VOC and the modern trading company Hagemeyer that have been largely unstudied They describe the evolution of a unique economic sector that occupies a key position in the supply chain from producers to consumers **Women Writing Back / Writing Women Back** Anke Gilleir, Alicia A. Montoya, Suzanna van Dijk, 2010 Privileging both a transnational and a sociological approach this volume explores the position of women in the

early modern literary field emphasising the international scope of their literature and examining their historical position influence network and dialogues *Nederlands kunsthistorisch jaarboek*, 1995 **Beeld en Zelfbeeld in de Nederlandse Kunst, 1550-1750** Reindert Leonard Falkenburg, 1995 Opstellen over portretkunst bij Frans Hals en Jan Steen en over houdingen gebaren en gelaatsuitdrukkingen in de beeldende kunst in de periode 1550-1750 *Pietism, Revivalism and Modernity, 1650-1850* F. A. van Lieburg, Daniel Lindmark, 2008 Pietism can be understood either as a specific German theological tradition emanating from late seventeenth century reformers as Spener and Francke or as a wider range of practical piety characterising early modern movements as Protestant Puritanism and Methodism as well as Catholic Jansenism Trying an inclusive definition an international network programme was set up resulting in a first conference in the Netherlands in 2004 which addressed the question whether Pietism was to be seen as a consequence of or a reaction to confessionalisation in the Reformation era A similar approach was chosen for a second conference held in the Swedish university town of Umeå on November 17-18 2005 Should Pietism be perceived as a promoter of or a reaction against modernity Are revivals and awakenings to be seen as inherent components of Pietism Or should they rather be viewed as new sociological phenomena integrated into Pietism on a later stage Which components of pious theology and practice were applied and what function did they serve in clerical and civil discourse Either way how do revivals relate to Pietism and how do they relate to Enlightenment This volume presents the proceedings of an inspiring conference taking a further step in the globalisation of Pietism studies as is demonstrated here in particular by the power of research in the Nordic area Above all this collection of papers helps to understand Pietism and revivalism as attempts to resist the breakthrough of secularizing tendencies in the modern world While doing so they themselves at the same time were modern in building up a counteroffensive of rechristianization using all contemporary means of communication and organization in the public sphere adapting their own traditions to new political and cultural contexts and creating constructions of the religious past

Entrepreneurs and Entrepreneurship in Early Modern Times Clé Lesger, 1995 Studie over de Nederlandse handel en het Nederlandse ondernemerschap in Nederland en de landen van Europa in de 16e, 17e en 18e eeuw waarbij de nadruk valt op de 17e eeuw Liberty and Concord in the United Provinces Joris Van Eijnatten, 2003 This study based on a large number of sources and treating a broad variety of topics offers an outline of developments in the early modern intellectual debate on religious liberty, religious toleration and religious concord in the eighteenth century Netherlands Anabaptist-Mennonite Confessions of Faith Karl Koop, 2004 This book sets out to recover the theological tradition of Mennonites and other communities within the Anabaptist stream Moving beyond early Anabaptist beginnings and giving attention to the Mennonite confessions of faith of the early seventeenth century the author discovers an identifiable and coherent Anabaptist Mennonite theological tradition This tradition is an important horizon for assimilating the past and provides a point of departure for those of the Anabaptist and Mennonite tradition who wish to be able to articulate their convictions in the church and the

world For a tradition to be usable it must not only point to a multiplicity of voices and opinions it must also illuminate points of unity and have the capacity to orient the contemporary church Readers will find this book helpful both in its historical approach and in its applications to current discussions within the church **The Mennonite Encyclopedia** Harold S.

Bender,1990 *Menno Simons, a Reappraisal* Gerald R. Brunk,1992 **From Martyr to Muppy (Mennonite Urban Professionals)** Alastair Hamilton,Sjouke Voolstra,Pieter Visser,Piet Visser,1994 From Martyr to Muppy deals with a topical theme the way in which cultural and religious minorities adapt to our society either fully retaining or partly abandoning their identities This book presents the recent findings about the assimilation history of the Dutch Mennonites from c 1530 from a multi disciplinary point of view The Polish North American and Dutch contributions aim at a wide reading audience which might be interested in the history of Dutch culture literature and mentality as well as in its church history **Wederdopers, menisten, doopsgezinden ,1980**
