Weirdly Beloved Tales Of Strange Bedfellows Odd Couplings And Love Gone Bad:

Weirdly Beloved Cynthia Ceilan,2008-12-16 Inspired by the romantic misadventures she s witnessed in her own family Cynthia Ceilan takes us jauntily through real life stories about love what demented things we do in the name of love the wildly unusual choices people have made in their selection of a mate and the joys and horrors of saying goodbye to a relationship that has long overstayed its welcome In her fact finding mission to write this collection Cynthia Ceilan began in the bowels of her own family history which always seemed unnecessarily shrouded in mystery There she discovered a treasure trove of delightfully wicked secrets which spurred her on to create this collection of true stories from around the world Here s some of what she found Normal is in the eye and the bedsprings of the beholder especially when it comes to furries objectophiles and happily married conjoined twins Same sex marriage is illegal in most countries but a few are happy to let you marry your dog You shouldn t be afraid to invite your crazy relatives to your wedding unless your brothers are Scott Erik Aaron Ryan and Randall and they re currently out on bail *Weirdly Beloved* offers comforting proof that there is never only one way to fall in love or one way to be properly married or one way to suffer the necessary indignities of love gone wrong

Sexual Perversions and Paraphilias: An A to Z Mark Griffiths,2024-12-01 Paraphilias from the Greek beyond usual or typical love are uncommon types of sexual expression often more commonly described as sexual deviations sexual perversions or disorders of sexual preference They are accompanied by intense sexual arousal and may appear bizarre or at the extreme end of the sexual continuum socially unacceptable For some paraphilic behaviour may be sporadic for others it may be compulsive or addictive This is both an important and timely book Some content is likely to be considered by many as truly shocking and horrendous while other material and case studies simply interesting baffling or perhaps even amusing To learn more you simply must open the book and read and because it s an A to Z you don t have to start at the beginning
