The Ridiculously Simple Guide to Apple Services Scott La Counte, 2019-09-20 It used to be a few times a year Apple would take the stage and announce something that everyone's head exploded over. The iPhone, The iPad, The Apple Watch, The iPod. That still happens today but Apple also is well aware of the reality most people don't upgrade to new hardware every year. How does a company make money when that happens? In a word services. In the past few years especially in 2019 Apple announced several services things people would opt into to pay for monthly. It was a way to continue making money even when people were not buying hardware. For it to work Apple knew it had to be good. They couldn't just offer a subpar service and expect people to pay because it said Apple. It had to be good. And it is. This book will walk you through those services and show you how to get the most out of them. *MacAddict Guide to Living the iLife* Shelly Brisbin, 2005 Every new or relatively new Mac comes loaded with powerful digital lifestyle applications collectively known as iLife. Problem is Apple provides little if any documentation. Sure these iApps are easy to use but each of them also has tons of undocumented features and shortcuts. We'll visually explain each app's basic features then go beyond the basics to show hidden features and time saving shortcuts. In addition each section that focuses on the creative iApps will include off the wall and entertaining yet useful projects that'll show readers how to have fun with the easy but powerful software that came with their Macs. Finally we'll take a look inside the Utilities folder to explore all its geeky goodness and teach the reader which of these apps can help them and which are better left alone and which one is the gateway to a host of old school games that we bet you didn't even know were there. Apps covered in this one of a kind book include 650_table_seel AddXMLRootTags pl amazon_info seel amazonls_marc seel archivearchivein archivecontntdmin archivein archiveinarchive archiveinarchivehtmlfooter archiveinarchivehtmlheader archiveinarchivemonthlyreport archiveinarchive service autoconfig balancereport balancereport template balancetrack balancetrackfile balancetrackfile template balancetrack template base64 bash_logger config bash_logger config template
