Textbook Excellence Award Texty guides the reader through both programming and built in functions to easily exploit
MATLAB s extensive capabilities for tackling engineering and scientific problems Assuming no knowledge of programming
this book starts with programming concepts such as variables assignments and selection statements moves on to loops and
then solves problems using both the programming concept and the power of MATLAB The sixth edition has been updated to
reflect the functionality of the current version of MATLAB R2021a including the introduction of machine learning concepts
and the Machine Learning Toolbox and new sections on data formats and data scrubbing Presents programming concepts
and MATLAB built in functions side by side giving students the ability to program efficiently and exploit the power of
MATLAB to solve technical problems Offers sections on common pitfalls and programming guidelines that direct students to
best practice procedures Tests conceptual understanding of the material with Quick Questions and Practice sections within
each chapter Full color treatment of charts graphs grids and special chapter sections such as Quick Questions and Key Terms
enhances readability and learning of MATLAB programming concepts and functions Content in this edition has been updated
to MATLAB version R2021a where appropriate For this edition new sections introducing concepts relevant to machine
learning have been added to the end of every chapter along with a new Introduction to Machine Learning chapter
