Sound and Affect Judith Lochhead, Eduardo Mendieta, Stephen Decatur Smith, 2021-04-23 There is no place on earth that does not echo with the near or distant sounds of human activity. More than half of humanity lives in cities meaning the daily soundtrack of our lives is filled with sound whether it be sonorous harmonious melodic syncopated discordant cacophonous or even screeching. This new anthology aims to explore how humans are placed in certain affective attitudes and dispositions by the music sounds and noises that envelop us. Sound and Affect maps a new territory for inquiry at the intersection of music philosophy, affect theory and sound studies. The essays in this volume consider objects and experiences marked by the correlation of sound and affect in music and beyond the voice as it speaks, stutters, cries or sings music whether vocal, instrumental or machine made and our sonic environments whether natural or artificial and how they provoke responses in us. Far from being stable correlations of sound and affect are influenced and even determined by factors as diverse as race, class, gender and social and political experience. Examining these factors is key to the project which gathers contributions from a cross disciplinary roster of scholars including both established and new voices. This agenda setting collection will prove indispensable to anyone interested in innovative approaches to the study of sound and its many intersections with affect and the emotions.

**Media Literacy in Action** Renee Hobbs, 2021-01-07 The blurring of entertainment, information and persuasion is reshaping work, life and citizenship. As a result, our relationship to media has never been so important nor so complex. By asking critical questions about what they watch, listen to, read and use, students can be better prepared to be responsible communicators who can use a variety of formats and genres for self expression and advocacy. Covering a wide range of topics including the rise of news partisanship, algorithmic personalization and social media stereotypes and media addiction, advertising and media economics and media influence on personal and social identity, Renee Hobbs helps students develop the lifelong learning competencies and habits of mind needed to navigate an increasingly complex media environment.

Rooted in the best practices of media literacy pedagogy, Media Literacy in Action brings an interdisciplinary approach to media studies that engages students with the following features: full color layout, engaging questions to stimulate thoughtful dialogue and reflection, contemporary media examples designed to cultivate intellectual curiosity, suggested activities for advancing students' confidence in oral, written and multimedia expression, access to videos and multimedia resources at [www.medialiteracyaction.com](http://www.medialiteracyaction.com).
