Reinventing Capitalism in the Age of Big Data Viktor Mayer-Schönberger, Thomas H. Davenport, 2018-02-27 From the New York Times bestselling author of *Big Data* a prediction for how data will revolutionize the market economy and make cash banks and big companies obsolete In modern history the story of capitalism has been a story of firms and financiers That's all going to change thanks to the Big Data revolution As Viktor Mayer-Schönberger bestselling author of *Big Data* and Thomas H. Davenport who writes for *The Economist* show data is replacing money as the driver of market behavior Big finance and big companies will be replaced by small groups and individual actors who make markets instead of making things think Uber instead of Ford or Airbnb instead of Hyatt This is the dawn of the era of data capitalism Will it be an age of prosperity or of calamity This book provides the indispensable roadmap for securing a better future

Mastering the Data Paradox Nitin Seth, 2024-03-18 There are two remarkable phenomena that are unfolding almost simultaneously The first is the emergence of a data first world where data has become a central driving force shaping industries and fueling innovation The second is the dawn of the AI age propelled by the advent of Generative AI that has created the possibility to leverage the data of the world for the first time The convergence of these two with data as the common denominator holds immense promise and the opportunities are boundless This book provides us with opportunities to push our thinking to innovate to transform and to create a better future at all levels individual enterprise and the world
