Global Meets Digital Vinod Jain, 2023-06-02 The world today is at the intersection of two megatrends Globalization and Digitalization a business revolution unfolding in real time Global Meets Digital captures the many nuances of this revolution succinctly including its impact on our lives and business An immediate implication of this revolution is that the economic principles that underpinned business and strategy for hundreds of years such as diminishing returns to scale and resource scarcity are no longer valid for a large and growing number of products and services The book will challenge you to think differently not just about digital products but also about physical products In the global digital world products are of three kinds physical digital and smart machines products that are both physical and digital and connected to the internet a distinction missed by most books on strategy and global business The economics of each kind of products is distinct from that of the others which has strategic implications for all kinds of businesses implications such as how to compete and how to create and capture value With several mini case studies and over 100 company examples the book covers themes and cutting edge issues like the paradox of globalization digital disruption disruptive business models exponential technologies Internet of Things competition in digital markets winner take all market dynamics Industry 4.0 how to innovate strategizing for the New Normal and value creation and value capture in both B2C and B2B contexts The book derives its underpinnings from the practice of global and digital business while theory remains in the background Intended specifically for an executive professional audience Global Meets Digital should also be of value to business students and professors learning to dip their toes into a digital world Vinod Jain is an expert in global and digital strategy award winning professor Fulbright Scholar and author of an MBA textbook Global Strategy He taught at the Rutgers Business School Newark and New Brunswick and the Robert H Smith School of Business University of Maryland College Park

At Maryland he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of Smith School's Executive MBA program in China. Since leaving Maryland he has taught in China, Denmark, Finland, Poland, and India as a visiting or term professor. His opinion pieces have appeared in *The Washington Post*, *The Baltimore Sun*, *Mensa Bulletin*, and *Economic Times* and *Mint India's* 1 and 2 business dailies among other media. In the past he worked as a middle and senior level executive with American and British multinationals. Vinod has a PhD in Strategy and International Business from the University of Maryland, College Park; MS in Management from UCLA; and BS Hons in Statistics from the Indian Statistical Institute, Calcutta.

Popular Music in a Digital Music Economy

Tim Anderson, 2013-12-17 In the late 1990s the MP3 became the de facto standard for digital audio files and the networked computer began to claim a significant place in the lives of more and more listeners. The dovetailing of these two circumstances is the basis of a new mode of musical production and distribution where new practices emerge. This book is not a definitive statement about what the new music industry is. Rather, it is devoted to what this new industry is becoming by examining these practices as experiments dedicated to negotiating what is replacing an object-based industry oriented around the production and exchange of physical recordings. In this new economy, constant attention is paid to the production and licensing of intellectual property and the rise of the social musician who has been encouraged to become more entrepreneurial. Finally, every element of the industry now must consider a new type of audience: the end user and their productive and distributive capacities around which services and musicians must orient their practices and investments.

Billboard, 2011-07-02 In its 114th year, *Billboard* remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform. *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital, and mobile entertainment issues and trends.

Music Business Handbook and Career Guide David Baskerville, Tim Baskerville, Serona Elton, 2022-11-16 The Thirteenth Edition of this powerhouse best-selling text maintains its tradition as the most comprehensive up-to-date guide to the music industry in all of its diversity. Readers new to the music business and seasoned professionals alike will find David Baskerville, Tim Baskerville, and Serona Elton's handbook the go-to source regardless of their specialty within the music field. *Music Business Handbook and Career Guide* is ideal for introductory courses such as Introduction to the Music Business, Music and Media, and other survey courses as well as more specialized courses such as the Record Industry, Music Careers, Artist Management, and more. The fully updated Thirteenth Edition includes a comprehensive discussion of the streaming revolution where this predominant form of music consumption stands today and is heading in the future. Rapid changes in music licensing are addressed and how they impact creators, musical work, performance, licensing, compulsory and negotiated mechanicals, and sound recording licenses. The new edition also analyzes the changing picture of music video and shows how music video has been upended by on-demand streaming. Lastly, there is all-new coverage of COVID-19 and how the concert industry has been
