

COMPARISON OF STANDARD REPAYMENT PLANS

REPAYMENT PLAN	PAYMENT	HOW LONG YOU'LL PAY	IDEAL FOR
Standard Repayment Plan	Your monthly payment will be a fixed amount based on the amount you need to pay each month in order to have your loan paid off in 10 years.	Discharged after 10 years	Those with a high starting salary right out of college.
Graduated Repayment Plan	Increases every 2 years.	Discharged after 10 years	Those who want a low monthly payment right out of college, and expect to make more money later on.
Extended Repayment Plan	10 or 15 percent of discretionary income. Changes with income.	Discharged after 25 years	Those who want the freedom to choose between fixed and graduated payments.
Extended Graduated Repayment Plan	Increases every 2 years. If you choose a fixed version, your payments will be split evenly over the course of 25 years.	Discharged after 25 years	Those who want a low monthly payment right out of college and the choice between fixed and graduated payments.

Student Loans and the Dynamics of Debt Brad Hershbein, Kevin M. Hollenbeck, 2015-02-23 The papers included in this volume represent the most current research and knowledge available about student loans and repayment It serves as a valuable reference for researchers and policymakers who seek a deeper understanding of how why and which students borrow for their postsecondary education how this borrowing may affect later decisions and what measures can help borrowers repay their loans successfully

United States Code United States, 2013 The United States Code is the official codification of the general and permanent laws of the United States of America The Code was first published in 1926 and a new edition of the code has been published every six years since 1934 The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress Second Session the last of which was signed by the President on January 15 2013 It does not include laws of the One Hundred Thirteenth Congress First Session enacted between January 2 2013 the date it convened and January 15 2013 By statutory authority this edition may be cited U S C 2012 ed As adopted in 1926 the Code established prima facie the general and permanent laws of the United States The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy In 1947 Congress began enacting individual titles of the Code into positive law When a title is enacted into positive law the underlying statutes are repealed and the title then becomes legal evidence of the law Currently 26 of the 51 titles in the Code have been so enacted These are identified in the table of titles near the beginning of each volume The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U S C 285b to enact the remainder of the Code on a title by title basis into positive law The 2012 edition of the Code was prepared and published under the supervision of Ralph V Seep Law Revision Counsel Grateful acknowledgment is made of the contributions by all who helped in this work particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office Preface *United States Code, 2000 Edition, Supplement 5, V. 4. Office of Management and Budget, 2002 **United States Code Service, Lawyers Edition** United States, 1936 *Income-Contingent Student Loan Repayment Systems Outside the U.S.* National Association of Student Financial Aid Administrators (NASFAA), 2014 There is remarkable diversity in student loan systems throughout the world In considering the ideal approach to system of loan repayment based on income here in the United States it is valuable to examine the nature successes and failures of some other countries methods of offering borrowers income contingent student loan repayment Two countries that seem to be particularly relevant to the efforts of this consortium are Australia and the Netherlands While far from the only countries that use an income contingent student loan repayment scheme these two were selected for analysis because of the differences they illustrate a pure system in the case of Australia and a hybrid system in the case of the Netherlands This consortium s proposal for an auto IBR system in Automatic for the Borrower How

Repayment Based on Income Can Reduce Loan Defaults and Manage Risk represents an ideological shift in the student loan system in the United States a potentially complicated restructuring of the current system that would involve several government agencies In striving for something simple efficient and fair there is always a chance for unintended consequences thus there is value in looking to other countries to draw instruction from their experiences In the two countries surveyed there seems to be a delicate balance between uptake rate and overall cohort repayment rate The Netherlands system suffers from a lack of participation partially as a result of its opt in nature but the Australian system suffers from a substantial amount of debt that is unlikely to be repaid Policymakers should consider this balance when they set objectives for an auto IBR system and design the system to maximize participation while protecting against providing excessive loan forgiveness or opportunity for non payment This paper accompanies Automatic for the Borrower How Repayment Based on Income Can Reduce Loan Defaults and Manage Risk ED558514

Sunk Cost Jillian Berman,2025-04-08 Exposes the forgotten origins of the student loan system how politicians have attempted to fix it and the life altering damage borrowers face Student loan horror stories are a dime a dozen But students today are faced with a seemingly insurmountable paradox Research consistently shows that the clearest viable option to financial stability is a college degree But if and when Americans decide to pursue diplomas student loan payments quickly follow and even after securing full time employment many borrowers struggle to make ends meet for years In Sunk Cost journalist Jillian Berman explores how the nation s student loan program went from a well intentioned initiative aimed at helping low and middle income students afford college to one that traps borrowers in long term debt Berman interviewed dozens of borrowers and policymakers and dug into the archives to unearth the true causes of the student loan problem A couple of generations ago policy makers generously subsidized Americans college educations because they knew it would be advantageous for the entire country a more educated population meant better quality of life for all But today higher education is viewed as an individual goal so students and their families are expected to be on the hook for it themselves Berman explains how this enormous shift happened which industries benefit from it and what it means for college going Americans today She shares real life stories of college graduates who are being crushed under some of the harshest consequences of the student loan system These borrowers pursued higher education in hopes of a better life and yet some have been trapped in debt for decades making it difficult to put food on the table much less imagine a life beyond debt By connecting personal accounts to the policy history of student loans Berman makes clear that if American society continues to push students toward higher education but fails to truly subsidize it the financial strain will become unbearable for all but the most privileged The current system is broken but Berman proposes that significant changes are possible and will require political will from state lawmakers and Congress along with a philosophical shift to tackle one of the largest consumer finance challenges of our time

Bates** ,1995 **Repay As You Earn** Philip G. Schrag,2001-11-30 In 1993 Congress created a student loan repayment plan intended to enable high debt graduates to accept low income public service jobs by reducing their loan payments and eventually forgiving part of their debts But this Congressional initiative only helps those with catastrophically low incomes It has failed to attract many users because as implemented through regulations of the U S Department of Education it requires payment over too long a period 25 years before forgiveness Many students go to graduate and professional schools in pursuit of careers in public service But they often must borrow 100 000 or more to finance their

education Their loan repayment obligations become so high that they can no longer afford to follow their ideals and they abandon their plans to have public service careers and seek employment with corporations or firms offering high salaries The income contingent repayment plan should have appealed to would be public interest lawyers who are among the graduates with the highest debt to income ratios but the plan has failed them and Schrag explores why and how the plan should be reformed either by Congress or by the federal administration **United States of America V.
