Trans Union ScorePLUS

Version 1.04 February 16, 2007

Overview

Trans Union is one of the nation's top consumer credit information services. Its national CRONUS database contains address, phone and other indicative information on most consumers with a credit history.

The Trans Union ScorePLUS POS program allows you to access an individual's credit history information by entering either his Social Security number and house number or his name and address. Once the requested record is found, Trans Union returns numerous credit history segments including, but not limited to the subject's name, aliases, past and present addresses, and his liability accounts and balances.

Subscribers to ScorePLUS are assigned a Trans Union member code and a password in order to access this information.

HAWK Fraud Alert Information

Trans Union maintains a potential fraud alert database called HAWK. The HAWK database alerts you if information in a customer's file signals potentially fraudulent activity. ScorePLUS returns only one HAWK code and message concerning fraud alert for each transaction. If only one HAWK code and message exists in the customer's file, an R (for) will be displayed after the heading Non HAWK in the HAWK segment. If there is more than one HAWK code and message, a Y (Yes) will appear. If you want to see the additional HAWK information, you must run a POS Trans Union Trace transaction.

If you did not request HAWK alert information when your Trans Union account was set up, contact your Trans Union Customer Service representative to add HAWK access to your Trans Union account.

Special Considerations

- Some customers of Hispanic origin may have two last names. In this instance, you may select the Secondary Name field search. Enter the first of the customer's last names (the paternal name) in response to the Last Name prompt. Enter the second of the customer's last names (the maternal name) in response to the Secondary Name prompt.
- The customer's house number cannot begin or end with a letter of the alphabet, but it can have a letter within the house number. For example, A12E7 is not an acceptable house number, but 12H46 is.

To Enter Letters

1. Press the number key on which the letter appears.
2. Press ALPHA once, twice, or three times, until the letter appears.
3. If needed, press [X] to delete the last character entered.
4. Special characters are on the * and 4 keys (& £) and the decimal point (.) are on key 3.

Other Usage Tips

- To display help information, press #.
- If your terminal has been idle, you may be prompted to enter your user ID and password.
- You can assign shortcut keys (hot keys) to frequently used pages. When you press a shortcut key from the idle prompt, your terminal will display the Transaction Type menu for the page assigned to that key.
- To display a list of entries for a prompt (e.g., state abbreviations), press #. Select your entry, then press [ENTER].
