The Hidden Language of Baseball Paul Dickson,2019-09-01 Baseball is set apart from other sports by many things but few are more distinctive than the intricate systems of coded language that govern action on the field and give baseball its unique appeal During a nine inning game more than one thousand silent instructions are given from catcher to pitcher coach to batter fielder to fielder umpire to umpire and without this speechless communication the game would simply not be the same Baseball historian Paul Dickson examines the rich legacy of baseball s hidden language offering fans everywhere a smorgasbord of history and anecdote Baseball s tradition of signing grew out of the signal flags used by ships and hand signals used by soldiers during battle and were first used in games during the Civil War The Hartford Dark Blues appear to be the first team to steal signs introducing a larcenous obsession that as Dickson delightfully chronicles has given the game some of its most historic and outlandish moments In this revised and expanded edition through the 2018 season Dickson discusses recent developments and incidents including the illegal use of new technology to swipe signs A roster of baseball s greatest names and games past and present echoes throughout making The Hidden Language of Baseball a unique window on the history of our national pastime

Anthropology and Beauty Stephanie Bunn,2018-01-17 Organised around the theme of beauty this innovative collection offers insight into the development of anthropological thinking on art aesthetics and creativity in recent years The volume incorporates current work on perception and generative processes and seeks to move beyond a purely aesthetic and relativist stance The chapters invite readers to consider how people sense and seek out beauty whether through acts of human creativity and production through sensory experience of sound light or touch or experiencing architecture visiting heritage sites or ancient buildings experiencing the environment through places of outstanding natural beauty or through cooperative action machine engineering or designing for the future
