Intelligent Product Management in the Era of Data Democratization: A BI-Centric Approach 2025 AUTHOR-1: SHIREESHA GORGILLI, AUTHOR-2: PROF DR PUNIT GOEL, PREFACE In the evolving landscape of digital product management data is no longer a support tool it is the strategic core Today s product leaders are expected not just to build delightful features but to make rapid high stakes decisions informed by real time data predictive insights and collaborative intelligence The rise of business intelligence BI and data democratization has shifted the way organizations think operate and scale This book *Intelligent Product Management in the Era of Data Democratization A BI Centric Approach* serves as a comprehensive guide to this transformation Whether you re a product manager navigating cross functional dynamics a data engineer embedding predictive analytics into product pipelines or a business leader scaling governance framework this book offers the tools case studies and frameworks to help you thrive in a BI enabled world Each chapter explores a foundational pillar of intelligent product management from building a data driven culture and integrating BI across lifecycles to architecting intelligent metrics systems and deploying automation at scale Chapter 1 introduces the foundational principles of data democratization setting the stage for product teams to unlock data fluency and equitable access across roles Chapter 2 emphasizes cultural transformation where leadership plays a pivotal role in nurturing a decision intelligent environment Chapter 3 dives deep into the BI technology stack guiding readers through platforms pipelines and self service frameworks essential for modern data operations Chapters 4 through 6 explore the integration of BI into daily product workflows visualization best practices and advanced analytics paradigms highlighting both centralized and distributed models of control Chapter 7 ventures into a specialized application of predictive intelligence battery diagnostics showing how machine learning revolutionizes lifecycle forecasting and anomaly detection in energy systems As organizations move from insight to action Chapters 8 to 10 illustrate the power of collaboration automation and role based governance in driving excellence at scale These sections provide detailed blueprints for aligning products engineering and data teams around shared metrics and objectives while also reducing operational friction through embedded intelligence and automated experimentation Finally Chapter 11 synthesizes the book s themes through a future facing lens designing an intelligent metrics architecture that scales with your product s complexity and growth It champions metric thinking not just as a measurement practice but as a product design principle rooted in continuous learning and impact This book is designed to be practical yet forward looking informed by real world examples from high growth companies backed by research and structured to serve both new and experienced professionals In a world where decisions are product features our aim is to equip you with the mindset and tools to lead boldly with intelligence empathy and data Authors *Vanity Fair* ,2012 **Global Meets Digital** Vinod Jain,2023-06-02 The world today is at the intersection of two megatrends Globalization and Digitalization a business revolution unfolding in real time *Global Meets Digital* captures the many nuances of this revolution succinctly including its

impact on our lives and business. An immediate implication of this revolution is that the economic principles that underpinned business and strategy for hundreds of years such as diminishing returns to scale and resource scarcity are no longer valid for a large and growing number of products and services. The book will challenge you to think differently not just about digital products but also about physical products. In the global digital world products are of three kinds: physical, digital, and smart machines—products that are both physical and digital and connected to the internet, a distinction missed by most books on strategy and global business. The economics of each kind of products is distinct from that of the others, which has strategic implications for all kinds of businesses, implications such as how to compete and how to create and capture value. With several mini case studies and over 100 company examples, the book covers themes and cutting edge issues like the paradox of globalization, digital disruption, disruptive business models, exponential technologies, Internet of Things, competition in digital markets, winner take all market dynamics, Industry 4.0, how to innovate, strategizing for the New Normal, and value creation and value capture in both B2C and B2B contexts. The book derives its underpinnings from the practice of global and digital business while theory remains in the background. Intended specifically for an executive professional audience, *Global Meets Digital* should also be of value to business students and professors learning to dip their toes into a digital world.

Vinod Jain is an expert in global and digital strategy, award-winning professor, Fulbright Scholar, and author of an MBA textbook, *Global Strategy*. He taught at the Rutgers Business School, Newark and New Brunswick, and the Robert H. Smith School of Business, University of Maryland, College Park. At Maryland, he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of the Smith School's Executive MBA program in China. Since leaving Maryland, he has taught in China, Denmark, Finland, Poland, and India as a visiting or term professor. His opinion pieces have appeared in *The Washington Post*, *The Baltimore Sun*, *Mensa Bulletin*, and *Economic Times* and *Mint*, India's 1 and 2 business dailies, among other media. In the past, he worked as a middle and senior level executive with American and British multinationals. Vinod has a PhD in Strategy and International Business from the University of Maryland, College Park; MS in Management from UCLA; and MS and BS Hons in Statistics from the Indian Statistical Institute, Calcutta.
